LARGE WATERY PIMPLES ON FACE

Began to Itch. Rubbing Made Them Worse, Festered and Came to Head, Could Not Rest. Used Cuticura Soap and Cuticura Ointment. Trouble Gone.

"Terry, Miss—'When I first noticed the trouble it was five pimples which began to itch on my entire person, but my face seemed to be more affected than other parts. I would rub those which would make them itch much worse. Then I began to scratch and this caused them to become large and form watery pimples. They festered and came to a head, then they burst and became scabs. On account of the itching at night I could not rest well."

"After using skin lotions they would heal a little, then break out again. After about a month my sister told me about Cuticura Soap and Ointment. I used water as warm as I could bear and made a lather with Cuticura Soap, lathered them down and applied the Cuticura Ointment which gave relief at once. I kept on using them and in a month's time the trouble was entirely gone. Cuticura Soap and Ointment had cured me." (Signed) Mrs. Ella A. Hunter, Jan. 31, 1914.
